

Seeds of Hope International Partnerships (SHIP), a Christian community development organization, began working in Zambia in 2003.

Interventions since 2003:

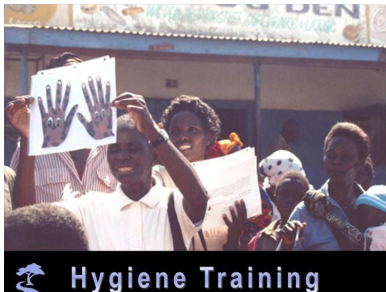

Safe Water for 170,000 People

- ✚ Provided safe water to over 170,000 Zambians,
- ✚ Repaired over 200 broken hand pumps,
- ✚ Built and installed over 400 biosand filters,
- ✚ Helped rural communities to build over 190 school latrines,
- ✚ Trained 3,500 people in Participatory Hygiene classes in 200 villages,
- ✚ Equipped over 95 people with increased vocational or agricultural skills.

SHIP is pioneering a replicable model for holistic Community Development Resource Centers built on Biblical principles and values. Our vision is that the Resource Centers will have a multipliable impact and that the concept will be adopted and replicated throughout all of Zambia and later into other countries in Africa.

Program Areas:

Hygiene Training

- ✚ Well Drilling
- ✚ Hand Pump Repair
- ✚ Participatory Hygiene
- ✚ Sanitation
- ✚ Improved Agriculture Techniques
- ✚ Literacy and Vocational Training
- ✚ Biblical Training

By providing safe water, hygiene training, sanitation promotion, and biosand water filter promotion and production, *SHIP* is bringing **improved health** to people living in Zambia. Through improved agriculture techniques and vocational and literacy training, we are **bringing hope for a better future.**

Projected outputs for 2008:

Drilling for Water

- ✚ Drill 63 new boreholes and repair 115 broken hand pumps
- ✚ Install 5,700 Sand Filters
- ✚ Conduct 23 village level hygiene trainings
- ✚ Promote sanitation in 16 communities through demonstration latrines
- ✚ Replicate additional Community Development Resource Centers
- ✚ Introduce improved agriculture techniques to impoverished farmers
- ✚ Expand drilling capacity by obtaining additional drill rigs

These outputs will result in saving lives by bringing clean water to over 130,500 people. Together with our funding partners, *Seeds of Hope* can bring about spiritual and economic transformation in Zambia by providing training in holistic community development based on Biblical principles. Through providing safe water and expanding vocational opportunities we will enable people to begin to reverse the downward spiral of poverty and provide hope for improved health and a better future.
